DETERMINATION OF CONSTANTS IN KINETICAL  
EQUATIONS. [1963] 10p brief  
Order from OTS, SLA, or ETC \$1.10 TT-64-14437

Trans. of #2b[urnal] Fiz[icheskoi] Khim[iii] (USSR)  
1963, v. 37 [no. 3] p. 517-525. (Abstract available)

DESCRIPTORS: \*Kinetic theory, Catalysis, Catalysts,  
Adsorption.

A kinetic method is proposed for determining all the  
coefficients of an equation with commensurate rates for  
all the elementary processes of the contact catalytic  
reaction. A general method for determining the absolute  
adsorption coefficients and the rate constants for the  
Elandin equation is described. An equation is derived  
for the relative adsorption coefficients for uniform and  
linearly non-uniform surfaces and a method is proposed  
for determining these coefficients for the active centers  
of a catalyst. (Author)
